WORK EXPERIENCE

Lincoln Financial Group - Remote

Customer Experience Automation Specialist

March 2026 - Present

- Analyze customer journeys and business workflows across enterprise portals, partnering with CX and product teams to document improvements and support UX design decisions.
- Support internal adoption of AI tools by helping teams identify use cases such as drafting agents, research synthesis, and workflow automation to improve efficiency across CX and product operations.

Developer

Oct 2025 - Feb 2026

- Partnered with Customer Experience and Continuous Improvement teams to translate business needs into user flows, prototypes, and requirements across different portals.
- Collaborated with engineers and stakeholders during discovery, journey analysis, and planning to document workflows and support improvements to enterprise customer portals.

CENTRO Inc Nonprofit - Worcester, MA

Sept 2024 - July 2025

Web Developer

- Delivered a production Django website by working directly with nonprofit stakeholders to gather requirements and design usable admin tools for content and donations.
- Managed deployment and infrastructure (PostgreSQL, Unicorn, NGINX), reducing hosting costs by 40%.

WeCan Initiative - Worcester, MA

Oct 2024 - May 2025

Software Developer

- Co-developed a Django web platform and mobile app supporting scheduling, tracking, and donations.
- Built staff-facing admin workflows to manage users, pickups, and communications.

Inner Voice Outer Change Nonprofit - Worcester, MA

Feb 2024 - Nov 2024

Web Developer

- Built and deployed a Django website with program pages, media, and donation workflows.
- Led development from planning through deployment, ensuring usability for non-technical staff.

ADDITIONAL EXPERIENCE

Bay Pointe Club - Onset, MA

Part-time

Pro Shop Assistant

- Supported daily golf operations including tee time management and member services.
